<b>A</b>		<b>Some Tricks in Cold-Weather Operations, J. T. Dyment</b>	Je 68
<b>ADDITIVES, OIL</b>		<b>Supersonic and Transonic Aircraft Problems, Carl E. Reichert</b>	Ag 17
High Additive Content Motor Oils Versus Fuel Quality and Engine Life, Hans M. Gadebusch	No 114	<b>The Wright Brothers as Aeronautical Engineers, M. P. Baker</b>	Se 100
Lubrication, Friction, and Wear Studies for High-Output Aircraft Engines, Edmond E. Bisson and Robert L. Johnson	Mr 39	<b>AIRCRAFT ENGINES. See Engines, Aircraft</b>	
The Lubrication of Railroad Diesel Engines, E. F. H. Pennekamp, L. E. Moody and H. L. Baker	Je 69	<b>AIRCRAFT ICING</b>	
The Performance of High V. I. Motor Oils, C. L. Fleming, Jr., B. W. Geddes, N. V. Hakala, and C. A. Weisel	Je 64	Heat Requirements for Ice Prevention on Gas-Heated Propellers, Vernon H. Gray	Je 63
Pioneering in Lubricant Alloys (The H. D. Factor in Engine Lubrication), C. G. A. Rosen	No 44	Operational Results of Thermal Anti-Icing, M. G. Beard and Dave North	My 56
Why Heavy Duty Motor Oils? J. M. Miller	No 112	<b>AIRCRAFT MAINTENANCE</b>	
<b>AERODYNAMICS</b>		Turbojet Engines—Service Experience, John W. Bailey	De 23
Some High-Speed Experience with Fighter-Type Airplanes, Robert B. Liddell	Oc 62	Turbojet Powerplant Maintenance and Overhaul, J. G. Borger and R. B. Rogers	Se 78
Some Notes on High-Speed Flight Problems, Joseph Flatt	Oc 35	<b>AIRCRAFT, MILITARY</b>	
The Wright Brothers as Aeronautical Engineers, M. P. Baker	Se 100	Flight Characteristics at High Mach Numbers, V. Outman and G. S. Graff	De 56
<b>AIR CLEANERS</b>		Some High-Speed Experience with Fighter-Type Airplanes, Robert B. Liddell	Oc 62
Dust and Its Effect on Air Cleaner Design, W. W. Lowther	Ap 74	<b>AIRCRAFT PROPELLERS</b>	
Engine Wear as Affected by Air and Oil Filters, W. S. James and B. Gratz Brown	Oc 46	Heat Requirements for Ice Prevention on Gas-Heated Propellers, Vernon H. Gray	Je 63
Sand and Dust Erosion in Aircraft Gas Turbine, J. E. DeRemer	Mr 68	Investigation of Reversing Propeller Pitch on a Multi-Engine Aircraft in Flight, Herbert O. Fisher	Se 35
West Coast Diesel Smoke and Odor Problems, L. J. Grunder	Jl 32	The Effect of Environment on Design Criteria of Helicopter Transmissions, Dietrich W. Botstiber	Ap 22
<b>AIR CONDITIONING</b>		<b>AIRPORTS AND AIRWAYS</b>	
Air Conditioning of Automotive Vehicles, A. T. Browne	Je 27	The Impact of Jets on Air Traffic Control, S. P. Saint	Ag 94
Modern Developments in Vehicle Heating, F. A. Ryder	Ag 65	Lessons Learned from the Berlin Airlift, Col. T. R. Milton	Je 68
<b>AIRCRAFT ACCESSORIES AND EQUIPMENT</b>		<b>AIR TRANSPORT</b>	
Aircraft Decelostat—A Device for Wheel Slide Protection, Arthur J. Bent	Jn 63	Air Speed Doesn't Mean a Thing, R. L. Turner	Ag 98
Auxiliary Gas Turbines for Pneumatic Power in Aircraft Applications, H. J. Wood and F. Dalenbach	Jn 67	Jet Transport Jitters, William Littlewood	Mr 17
The Avro C-102 Jetliner, James C. Floyd	Je 35	Passenger Markets for Future Airplanes, Hal E. Nourse	No 108
Driving Aircraft Accessories Remotely from the Aircraft Engine, Hulon R. Shows	My 46	The Transport Airplane as Related to Future Military Plans, Major-Gen. Laurence S. Kuter	Je 17
Operational Results of Thermal Anti-Icing, M. G. Beard and Dave North	My 56	<b>ALUMINUM AND ALLOYS</b>	
<b>AIRCRAFT DESIGN AND PERFORMANCE</b>		Fatigue Life of Aircraft Engine Mounting Components, R. C. Henshaw, L. Wallerstein, Jr., and S. J. Zand	Ap 42
Airframe Manufacturers' Problems and Solutions, Hall L. Hibbard	Jn 42	The Uses of Bonded Bimetallic Components in Modern Automotive Structure and Engine Design, Charles E. Stevens, Jr.	Jn 32
Air Speed Doesn't Mean a Thing, R. L. Turner	Ag 98	<b>ANDERSON, LEE</b>	
The Avro C-102 Jetliner, James C. Floyd	Je 35	A Functional Approach to Body Design	Je 42
The Civil Aeronautics Administration at Work, H. M. Toomey	Fe 44	(Co-authors John Najjar, Hiram Pacific and G. P. Gaulien)	
An Economic Evaluation of the Avro Canada Jetliner, J. A. Morley	Oc 67	<b>ATCHISON, L. C.</b>	
Flight Characteristics at High Mach Numbers, V. Outman and G. S. Graff	De 56	Rates of Wear in Railroad Diesel Engines	Jl 18
The Importance of Tapered Sheet and Large Pressure Forgings in Modern Wing Design, S. Joseph Pipitone	Jl 24	(Co-author Ray McBrien)	
Jet Transport Jitters, William Littlewood	Mr 17	<b>ATKIN, E. H.</b>	
Need for Improved Performance, Rear Admiral A. M. Pride	Jn 36	New Appraisal of 1955 Air Transport—Canadian Manufacturer's Viewpoint	Fe 35
New Appraisal of 1955 Air Transport—Airline Operator's Viewpoint, H. R. Harris	Fe 36	<b>ATOMIC ENERGY</b>	
New Appraisal of 1955 Air Transport—Airplane Manufacturers' Viewpoint, Carlos Wood	Fe 36	Industrial Application of Radioisotopes, William Reid	My 43
New Appraisal of 1955 Air Transport—Canadian Manufacturer's Viewpoint, E. H. Atkin	Fe 35	Radioactive Isotopes for Detection of Submicroscopic Quantities of Material Transfer, R. A. James	My 43
Operational Results of Thermal Anti-Icing, M. G. Beard and Dave North	My 56	Radioisotopes, Keith Symon	My 43
Some High-Speed Experience with Fighter-Type Airplanes, Robert B. Liddell	Oc 62	<b>AULT, G. MERVIN</b>	
Some Notes on High-Speed Flight Problems, Joseph Flatt	Oc 35	Review of NACA Research on Materials for Gas-Turbine Blades	My 40
		(Co-author G. C. Deutsch)	
		<b>AUTOMOBILE ENGINES. See Engines, Passenger-Car.</b>	
		<b>AVIATION, MILITARY</b>	
		Industrial Mobilization Planning with the Aircraft Industry, Brig.-Gen. Alfred H. Johnson	No 23
		Maximum Use of Subcontracting—Philosophy of Lockland Operations, K. N. Bush	Je 72
		Stereophotography, Col. George W. Goddard	Se 64
		The Transport Airplane as Related to Future Military Plans, Major-Gen. Laurence S. Kuter	Je 17
